

# Digital Display - Battery Back-up

# CO920

The American Sensors CO920 continuously monitors for carbon monoxide gas. It measures for concentrations of CO and sounds a loud alarm when a potentially harmful level is reached. The unit is complete with digital LED display and is easy to install, as it simply plugs into any standard 120 volt wall outlet. The added feature of a 9 volt battery back-up ensures monitoring even in the event of a power outage.

## FEATURES

- 120 volt Plug-in with 9 volt battery back-up power source (included)
- Digital LED display
- Battery removal indicator
- Low back-up power indicators
- No expensive replacement sensor required
- Advanced semiconductor sensing technology
- Emergency alarm
- Self diagnosing circuitry
- Instant test/reset feature
- Power and alarm light indicators
- Loud 85 decibel alarm pattern
- 5 Year Limited Warranty (battery excluded)
- Meets applicable standards

## TECHNICAL SPECIFICATIONS

|                    |  |
|--------------------|--|
| Detection Method:  | Advanced semiconductor sensing technology                |
| Sensitivity:       | Continuous monitoring as per applicable standards        |
| Dimensions:        | 6.6"(w) x 3"(h) x 1.7"(d)                                |
| Power Supply:      | 120 volt AC (60 Hz, 3w)<br>Back-up - 9 volt Alkaline     |
| Alarm Sound Level: | 85 dB at 10 feet (3 m)                                   |
| Alarm Duration:    | Repeating pattern while hazardous level of CO is present |

## NORMAL OPERATING CONDITIONS

|                    |                                |
|--------------------|--------------------------------|
| Temperature Range: | 40°F (4.4°C) to 100°F (37.8°C) |
| Relative Humidity: | 30% to 70%                     |

**Item Order Number:** COAC-920C  
Master Case Quantity of 6
